MEMORANDUM FOR THE DIRECTOR, DEFENSE SUPPLY AGENCY

SUBJECT: RDT&E Information to the Central Intelligence Agency (CIA)

CIA letter dated 18 January 1964 (Enclosure 1) is forwarded herewith for action.

This office approves the release of classified and unclassified information, as may be needed, from the RDT&E (DD613) files of the Defense Documentation Center (DDC) to CIA.

In addition to this service, full DDC services from its technical report collections are also authorized for use by CIA and its contractors. Necessary arrangements for clearances, certifications, transmittals and the like, may be made directly with CIA along the same lines used to service DoD offices and contractors.

GENERAL INTELLIGENCE AGENCY
Washington, D. C.

Office of
The Deputy Director (Science and Technology)

18 JAN 1964

Assistant Secretary of Defense
Research and Engineering
Department of Defense
Pentagon
Washington 25, D. C.

ATTENTION: Dr. Walter M. Carlson, Director of Technical
Information

Dear Dr. Carlson:

25X1 In confirmation of the discussions in your office on
15 January 1964 with [] of my staff, it
is requested that CIA be provided, on a continuing and
selected basis, classified and unclassified Department of
Defense contract and research information through the Defense
Documentation Center.

Economy considerations and my desire to preclude
duplication of research effort between CIA and DoD are the
major factors influencing this request. In addition, as it
is anticipated that the close research interface with DoD
will continue to develop, it is essential that CIA acquire
information on existing and proposed DoD research which may
have intelligence potential. CIA is particularly interested
in those research areas supported by contractual arrangements.

25X1 It is my understanding that the administrative details
relating to this request are to be worked out at an early
meeting between [] and Dr. Robert Stegmaler of
DDC.
